

# CONTAINER WASHING EQUIPMENT

The rear-loading container washing equipment in cold water cleans the bins and containers inside and outside by means of rotating heads and fix bar with nozzles that spray water at high pressure. The container washer is compatible with bins ranging from 80 to 390 liters, flat cover containers with capacities from 500 to 1200 liters and 770 to 1300 liters containers.

# CONTAINER WASHING EQUIPMENT

## Pump performance

122 l /min 120 bars.

## Drive

Gearbox PTO.

Other possible drive options:

Hydrostatic transmission and an auxiliary motor for soundproofed units.

## Finishing

**Interior:** protection with a special epoxy-resin treatment.

**Exterior:** primer coat and high quality white polyurethane finish.

## Gas adapted chassis

It is possible to mount the container washer on a gas adapted chassis. Incompatibility with gas cylinders on the frame. Drive must be by hydrostatic transmission.

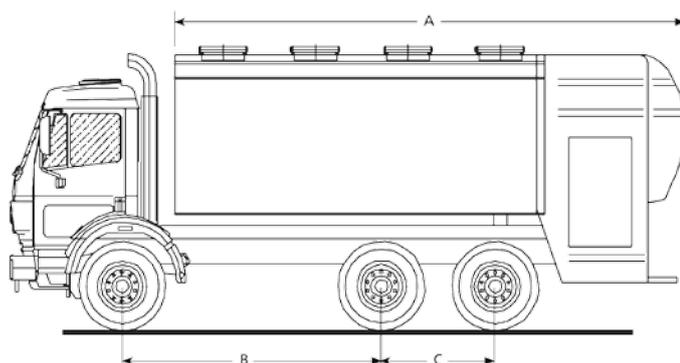

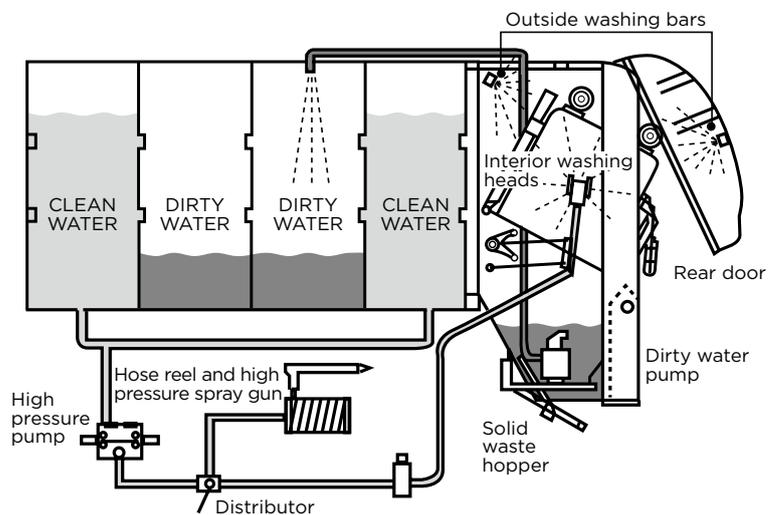

## MATERIALS

	COLD WATER
<b>Tank</b>	Carbon Steel Stainless steel (optional)
<b>Hopper</b>	Stainless steel
<b>Lifter</b>	Stainless steel

## WASHING EQUIPMENT

	COLD WATER
<b>Alternative operating heads</b>	Optional
<b>15 meter hose reel and spray gun</b>	Optional
<b>Sprinkling and flushing equipment</b>	Optional
<b>Detergent dosage equipment</b>	Optional
